Bike 100 Miles in June Instagram Challenge

About the American Heart Association

For nearly 100 years, we've been fighting heart disease and stroke, striving to save and improve lives. From humble beginnings, the AHA has grown into the nation's oldest and largest voluntary organization dedicated to fighting heart disease and stroke. Heart disease is the No. 1 killer worldwide, and stroke ranks second globally. Even when those conditions don't result in death, they cause disability and diminish quality of life. We want to see a world free of cardiovascular diseases and stroke. Our size and scope let us have a real impact. The AHA has invested more than \$5 billion in research, making us the largest not-for-profit funding source for cardiovascular and cerebrovascular disease research next to the federal government, all in an effort to be a relentless force for a world of longer, healthier lives.

What is an Instagram Challenge?

Donors to your fundraiser will have the option to cover processing fees. The proceeds collected from each fundraiser go directly to the organization.
